Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on March 2, 2006 has been entered.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the examiner has considered the reference listed on an Information Disclosure Statement (IDS) filed March 2, 2006. The reference neither anticipates nor renders the claimed invention obvious, and as such, the claims are allowed for the reasons already of record. Specifically, because the prior art does not teach or fairly suggest a cobalt-catalyzed hydroformylation process wherein during the cobalt recycle step, cobalt in the form of cobalt acetate or formate formed during a concentration step in an evaporator, is recycled to the hydroformylation step without the use of a vapor stream carrier, as described in the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
